# MICHELIN® X-HAUL®

The versatile MICHELIN® E4 radial tire for haul trucks operating at moderate speeds to provide excellent protection and long wear in harsh conditions.

## THE BENEFITS OF MICHELIN® RADIAL TIRES

### Exceptional Performance:

- Excellent traction and flotation; outstanding stability; enhanced operator comfort; less vehicle damage

### Excellent Productivity:

- Cooler operating temperatures, less susceptibility to damage from impacts and penetrations

### Low Operating Costs:

- Long-lasting, even-wearing tread pattern; durable with low rolling resistance for efficient fuel economy; easy to repair

## THE TIRE OF CHOICE FOR:

RIGID DUMPERS

BOTTOM DUMP TRUCKS

SIZE	TREAD DEPTH

### Versatility

The innovative, open shoulder tread design has an unbroken central lug, which offers a balanced solution for changing traction, surface conditions, speed requirements and resists hard surface tread block pounding.

### Good Speed/Distance Capability for a Wide Range of Conditions

The open tread design and optimized rubber compound help provide cooler running without compromising durability and tire life.

### Exceptional Protection in Severe Conditions

The square shoulders and reinforced sidewalls help provide exceptional protection in severe operating conditions resulting in optimal durability.
